DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 26 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The dependency of claim 26 is vague. Lines 1 to 2 of claim 26 include the following recitation "The height-adjustment mechanism of claim 14, further including the height-adjustment mechanism of claim 10". It cannot be determined if claim 26 is intended to be dependent from claim 10, claim 14, or both. Dependency from both claims would render claim 26 as being in improper multiple dependent form. Clarification is required.

Allowable Subject Matter

Claims 1, 3 and 5-25 are allowed.

Response to Amendment

Applicant's response has been fully considered. The remaining issue in the application is described above.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Kopish et al (6460932) shows a height adjustable armrest with a pivotable lever mounted in a pair of pivot seats.

This Office action has not been made final since it includes a new grounds of rejection not necessitated by Applicant's amendment.
